

Events Speaker Request — GHL Build Guide

Generated: April 2, 2026

Location: Paradigm Consulting (toKhUkB5BEHB9Jn52ktG)

STEP 1 — CREATE CUSTOM FIELDS

Create these custom fields in GHL under Settings > Custom Fields > Contact:

Field	Key	Type
SPK Organization	contact.spk_organization	TEXT
SPK Event Type	contact.spk_event_type	TEXT
SPK Event Date	contact.spk_event_date	DATE
SPK Audience Size	contact.spk_audience_size	TEXT
SPK Additional Details	contact.spk_additional_details	LARGE_TEXT

STEP 2 — CREATE TAGS

Tag

speaker-request-lead

STEP 3 — PIPELINE

Use existing **Paradigm Leads** pipeline (mgAoodSdPPjT4sxBokR2).

Assign new speaker request contacts to stage: **New Lead** (2f9115b0-0527-4353-b668-a84f36eb15d0)

STEP 4 — CREATE WEBHOOK TRIGGER

1. Go to Automation > Workflows > Create Workflow
 2. Name: "Speaker Request Intake"
 3. Set trigger: Inbound Webhook
 4. Copy the trigger ID from the webhook URL
 5. Add trigger ID to Netlify env var: WEBHOOK_EVENTS
-

STEP 5 — WEBHOOK PAYLOAD REFERENCE

The site sends this payload through /api/webhook with source key events-speaker-request:

```
{
  "full_name": "Jane Smith",
  "organization": "Acme Corp",
  "email": "jane@acme.com",
  "phone": "555-123-4567",
  "event_type": "keynote",
  "event_date": "2026-06-15",
  "audience_size": "200",
  "additional_details": "Looking for a 45-minute keynote on operational scaling.",
  "company_url": "",
  "source": "events-speaker-request",
  "lead_source": "speaker-request",
  "timestamp": "2026-04-02T12:00:00.000Z"
}
```

event_type values: keynote, panel, workshop, private, other

company_url is a honeypot field — always empty for real submissions. The server-side proxy silently rejects any submission where this field is filled.

WORKFLOW — Speaker Request Intake

Name: Speaker Request Intake

Status: Publish when complete

Trigger: Inbound Webhook (from Step 4)

Step 1 — Create or Update Contact

Map from webhook payload:

- full_name → First Name + Last Name (split on first space)
- email → Email
- phone → Phone
- organization → SPK Organization
- event_type → SPK Event Type
- event_date → SPK Event Date
- audience_size → SPK Audience Size
- additional_details → SPK Additional Details

Duplicate rule: Update existing contact if email matches.

Step 2 — Add Tag

- Tag: speaker-request-lead

Step 3 — Add to Pipeline

- Pipeline: Paradigm Leads
- Stage: New Lead
- Only if contact is NOT already in the pipeline

Step 4 — Internal Notification Email

To: jay@paradigmconsulting.co

Subject: New Speaker Request — {{contact.full_name}} — {{contact.spk_event_type}}

Body:

SPEAKER REQUEST RECEIVED

Name: {{contact.full_name}}
Organization: {{contact.spk_organization}}
Email: {{contact.email}}
Phone: {{contact.phone}}
Event Type: {{contact.spk_event_type}}
Event Date: {{contact.spk_event_date}}
Audience Size: {{contact.spk_audience_size}}

Additional Details:
{{contact.spk_additional_details}}

Submitted: {{contact.spk_submitted_at}} (use timestamp from payload)

Step 5 — Confirmation Email to Requester

To: {{contact.email}}

From: Matt I Founder, Paradigm Consulting

Subject: We received your speaker request

Preview: Our team will review and follow up within 48 hours.

Body:

{{contact.first_name}},

Thank you for reaching out about a speaking engagement. We have received your request and our team will review the details.

Here is what we have on file:

- **Event type:** {{contact.spk_event_type}}
- **Date:** {{contact.spk_event_date}}
- **Organization:** {{contact.spk_organization}}

You can expect to hear back from us within 48 hours. If your event is time-sensitive, reply to this email and we will prioritize your request.

Matt

Founder, Paradigm Consulting

SMART LIST

Create this saved filter in GHL:

List Name

Filter

Speaker Requests — All Tag = speaker-request-lead

MANUAL CHECKLIST

- ☐ Create 5 custom fields (SPK_ prefix) in GHL
- ☐ Create speaker-request-lead tag
- ☐ Build Speaker Request Intake workflow with webhook trigger
- ☐ Copy webhook trigger ID to Netlify env var WEBHOOK_EVENTS
- ☐ Confirm events-speaker-request source key exists in WEBHOOK_MAP in webhook.js (already added)
- ☐ Configure internal notification email to jay@paradigmconsulting.co
- ☐ Configure confirmation email from "Matt I Founder, Paradigm Consulting"
- ☐ Create smart list
- ☐ Submit test lead and confirm:
 - Contact created with all SPK_ fields mapped
 - Tag speaker-request-lead applied
 - Pipeline stage set to New Lead
 - Internal notification email received
 - Confirmation email sent to requester
